TRAKA 21

Plug & Play Key Management

What is Traka 21?

Traka 21 is a sophisticated stand-alone key management system which combines innovative RFID technology and robust design to provide small and medium sized businesses with the advanced management of 21 keys or keysets in an affordable plug and play unit.

Operation

Stand-alone Plug & Play solution with advanced RFID technology

Touchscreen interface

PIN access to designated keys or keysets
which are individually locked in place

Keys are securely attached using special security seals

Simple to configure through setup wizard

No requirement for network connection or PC

Concealed robust fixing points allow secure wall fixing

Mains operated with optional battery backup

Features

User, key and access rights administration

Multilingual functionality

Screen based audit trail and reporting capability or export via USB port

21 robust, long-life iFobs with security seals

21 locking receptors with LEDs

Robust and compact steel housing eliminates exposed hinges and obvious access points

Manual override and door release
functions in case of emergency

Audible alarms

Hold up to 250,000 audit trails

Traka 21 security seal

The secure one-time security seal is
cost-effective and simple to apply
without the need
for specialist tools.

Traka 21 iFob

Once attached to an iFob with a robust
security seal, individual keys or keysets
are assigned a specific receptor within
the Traka cabinet and locked in place
until released by an authorised user.

Who are Traka?

We are the world leader in intelligent key and asset management systems.

As a trusted partner to businesses and institutions across the world in nearly 40 countries, Traka has supplied a comprehensive range of innovative and intelligent key and asset management solutions which have provided peace of mind and protection to people, buildings and equipment in even the most demanding of environments.

How does it work?

Ensuring that the right keys are available to the right people at the right times is a concern for every organisation

User is required to enter his/her unique PIN code to gain access to the cabinet

All keys and keysets are individually locked by the Traka 21 unit. Green LEDs indicate those keys to which this user has access. The user cannot remove keys highlighted by the Red LEDs which remain locked in place.

Amber light indicates return position.

Protecting over £10bn worth of assets worldwide

Through quality design, manufacture and support and a commitment to customer service, we've earned an enviable reputation in key and asset management systems. Before reaching you, each of our products are rigorously tested to ensure that they perform effectively and are convenient, easy to install, simple to use and adaptable to future needs.

An ASSA ABLOY group brand

ASSA ABLOY is the largest global supplier of intelligent lock and security solutions. One in every 10 lock and security installations worldwide uses our products.

Using the latest technologies and tried-and-tested techniques ASSA ABLOY is constantly developing innovative solutions that improve our customers' lives through greater security, safety and convenience.

Traka 21's innovative plug and play system provides small to medium size businesses with the very latest in intelligent key management.

Simple, efficient and cost-effective, Traka 21 helps trace and account for every key or keyset, which are individually locked in place, ensuring that critical business operations are never jeopardised.
